24	3	firewood	Wuelknitz	Roederau

(3)

1. [redacted]omment. The number of railroad cars loaded in the Dresden railroad district dropped from 1,355 in May 1952 to 1,045 cars in June. However, the number of railroad cars loaded in Neuoelsnitz and Oelsnitz were not included in the present report. In May, a total of 258 cars was loaded with coal at the railroad stations mentioned. As these cars were not covered in the present report, it may be stated tha military shipments in June were almost on t e same level as in May. The supply traffic observed was normal. Major loadingoperations were observed in Chemnitz, Dresden, Riesa and Roederau which serve the Zeithain troop training grounds.

2. [redacted]Comment. The train probably carried elements of the air force transport regiment to be transferred from Altenburg to Brandis. In formation of the transfer of the regiment has been received previously. [redacted]
